OCTOBER, 2024 FALL

## Keep Your Thanksgiving Feast Flowing: Don't Pour Grease Down the Drain!

As we prepare to celebrate the beginning of the holiday season and enjoy a delicious Thanksgiving feast, it's important to remember one simple rule that will save your pipes— and possibly your holiday: **don't pour grease down the drain!** Whether you're roasting a turkey, frying up crispy sides, or sautéing vegetables, the grease that's left over can cause major plumbing problems. When poured down the drain, grease hardens in the pipes, creating blockages that can lead to messy and costly backups.

No one wants to spend their holiday dealing with clogged drains or overflowing sinks! Instead, let your grease cool and dispose of it properly by pouring it into a container and throwing it in the trash. A little extra care now will keep your home plumbing—and the entire community's sewer system—running smoothly through the holiday season. Let's make this Thanksgiving about food, family, and fun, not about fixing pipes!

### Past Due Accounts

St Vrain Sanitation District operates on a cost of service basis and sets its fees accordingly. While the District has sufficient reserves in place to ensure the environmental treatment of sewer flows it is necessary for the customers of the District to maintain current on the quarterly fees.

Thank you to the customers of the District that remain current on their accounts. If your account is past due, please take this time to review your bill and make a payment to bring your account current. By bringing your account current, customers can avoid further late fees and special assessment liens filed with Weld County, saving money in the long run. If you have any questions about your bill, please call our customer service line at **303-682-4693**.

### CHRIS'S CORNER: Fall into a Rewarding Career with Wastewater Treatment and Collection

As autumn arrives, we're excited to share opportunities in our wastewater treatment and collection systems. This season, we're not just treating water—we're inviting passionate individuals to join us in making a difference.

**Explore Career Opportunities:** The wastewater industry goes beyond pipes and plants; it's essential for community health and environmental protection. We offer diverse roles, including:

- \* **Treatment Plant Operators:** Manage daily operations of wastewater facilities.
- \* **Environmental Engineers:** Design and enhance waste treatment systems.
- \* **Maintenance Technicians:** Maintain equipment and infrastructure.
- \* **Laboratory Analysts:** Conduct water quality testing and analysis.
- \* **Collection System Workers:** Oversee the pipe network.

**Trap the Grease!**  
The District offers  
**Free Bags.**  
Simply pour  
slightly cooled cooking  
grease into the  
bag, and toss when  
full.

**BOARD MEETS 3:30 PM  
3RD THURSDAY OF  
EACH MONTH, UNLESS  
OTHERWISE POSTED.**

## CHRIS'S CORNER; District Update

CONT...

- \* **Customer Service Representatives:** Connect with the community.
- \* **Construction Inspectors:** Ensure construction meets quality standards.
- \* **Finance Professionals:** Manage budgeting and resource allocation.

**Internships: A Path to Success:** We're dedicated to nurturing future wastewater professionals through our paid internship program. Interns gain hands-on experience and mentorship, contributing to real-world projects. We always look for future team members, so if you're interested, email us at [hr@stvrainsdco.gov](mailto:hr@stvrainsdco.gov).

**Start Your Career Without College Pressure:** We recognize that college isn't the right path for everyone. Many of our roles offer on-the-job training and certifications, allowing you to grow while earning a competitive salary.

**Invest in Your Future with Tuition Reimbursement:** We proudly support your educational goals with tuition reimbursement programs, allowing you to pursue higher education at your own pace while receiving professional and financial support.

**Join Us in Shaping the Future:** We invite you to take first step toward a rewarding career that benefits your community and the environment.

Sincerely,  
Chris K.

## A Call for Awareness: Early Detection of Uterine Cancer

Recently, our District experienced the heartbreaking loss of a beloved staff member to uterine cancer. In her memory, we feel it is important to raise awareness about this condition and encourage proactive health screenings.

Uterine cancer is one of the most common cancers affecting women, with symptoms that can often be subtle or mistaken for less serious conditions. These include abnormal vaginal bleeding, pelvic pain, or changes in menstrual cycles. Risk factors like hormonal imbalances, and a family history of cancer can increase vulnerability. Regular check-ups and early screenings significantly improve treatment outcomes, which is why being aware of these risks and symptoms is so vital.

We urge all members of our community to prioritize their health by scheduling regular gynecological exams and discussing any concerns with a healthcare provider. By spreading awareness, we can honor the memory of our colleague and work toward reducing the impact of this illness on our community. Your health is worth it, and early detection can save lives.

IN LOVING  
Memory

**"Our mission is to protect public health by  
providing high-quality water reclamation  
through collection and treatment."**
