"Flush Away Hassle: The Perks of Prepaying Your Sewer Bill!"

In this Issue:

- * PREPAY SEWER BILL
- * CHRIS'S CORNER
- * UPCOMING ELECTION

District Calendar:

- * JANUARY 1ST
NEW YEARS DAY (CLOSED)
- * JANUARY 20TH
MARTIN LUTHER KING DAY
(CLOSED)
- * FEBRUARY 17
PRESIDENTS DAY (CLOSED)

BOARD OF DIRECTORS:

DAN MARCH
PRESIDENT

JOSH COOK
VICE- PRESIDENT

RYAN FREEMAN
TREASURER

GLEN LAVANCHY
SECRETARY

KEVIN FEELEY
DIRECTOR

Paying your sewer bill for an entire year in advance offers several advantages. By prepaying, you save time by avoiding quarterly payments and ensure you never miss a deadline, which can save you from late fees and added penalties.

Additionally, prepayment helps the district manage its cash flow more effectively, enabling us to maintain and improve infrastructure and services that benefit the entire community.

JUST A LITTLE
Reminder

Avoid fee's drop a check off at our convenient 24/7 drop box.

CHRIS'S CORNER; District Update

Time has a way of slipping by faster than we expect, and each new year offers a chance to reflect on our progress and renew our commitment to serving our community's wastewater needs. As we welcome 2025, we are reminded of our privilege and responsibility in providing high-quality service, always seeking new, more efficient ways to improve. Our focus remains on innovation, reliability, and stewardship, ensuring that our district continues to flourish in the years ahead.

Over the past few months, we began work on a new Strategic Plan, which is now nearing completion and will guide the district in the right direction. We are also looking forward to moving into our new building in Frederick, Colorado, later this year, a facility that will help us accommodate our growing in-house maintenance team under the leadership of our soon-to-be-hired Collection System Superintendent. At the same time, we're excited to be reviewing plans for commercial and residential development projects that promise to expand our operations further.

We wish everyone a positive and prosperous start to 2025. If you ever need assistance with anything on the wastewater side, please remember we're here to help and are grateful for the opportunity to serve you.

*Sincerely,
Chris K.*

The St. San Plan

REUSABLE LIDS

The District offers free reusable can lids for the collection of cooking oils and grease that could otherwise cause a clog in your sewer pipes. The lids snap onto any of three common sizes of tin cans forming an airtight seal. Fill the can with used oil/grease, then when solidified scrape waste into trash

"Keep Medications Out of the Drain!"

Proper Disposal of Medications

Do you have outdated or unused medications at home? Flushing them down the toilet might seem convenient, but it poses risks to water quality and the environment. Wastewater treatment plants cannot remove pharmaceuticals, which can lead to contamination that affects wildlife and potentially public health.

Safe Disposal Options

Instead of flushing, use secure medication drop-off programs or participate in the U.S. Drug Enforcement Administration's Take Back events. These initiatives ensure that unused medications are safely incinerated, protecting your family and the environment. Check for local drop-off locations available year-round for added convenience.

Handling Mercury-Containing Items

If you have a mercury thermometer or other mercury-containing devices at home, they can pose health and environmental hazards if broken. Look for safe disposal options, including mercury thermometer exchange programs that provide a free digital thermometer in return.

Your Role in Protecting the Environment

By properly disposing of medications and mercury-containing devices, you can help safeguard water quality and public health. For more information on safe disposal programs and environmental protection efforts, contact St. Vrain Sanitation District at 303-776-9570.

Upcoming Election: May 6, 2025

There will be a regular District election on **May 6, 2025**. We are currently in search of a minimum of two applicants for Board Director positions. To be eligible to run, a candidate must meet the following criteria:

- Be registered to vote in Colorado; AND***
- Reside within the District; or***
- Be a property owner, or a spouse or civil union partner of a property owner within the District.***

If you are interested in running, please submit a Self- Nomination and Acceptance Form to Heidi Hurtado, Designated Election Official at the District office by close of business on February 28, 2025.

"Our mission is to protect public health by providing high-quality water reclamation through collection and treatment."
